U of T Student Equity Census

Count yourself in

It's important, easy to do and
will help to advance equity for
students.

uoft.me/equitycensus

There is still time! Set up your API key.

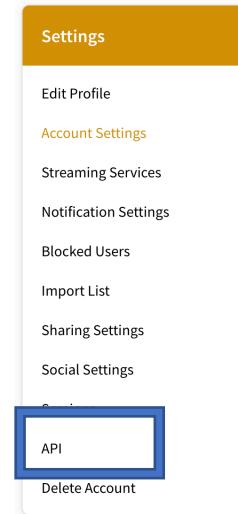

Go to <https://www.themoviedb.org/> and set up an account

Once your account is set up and activated (validation email), go to **Settings -> API**. You want to get an API key to be able to participate. Note that the API registration process is *not optimized* for mobile.

You will be asked for some information, I'd suggest some of the following as inputs:

- App name: STA490 teaching example_**yourname**
- Description: A teaching example about using APIs for a Statistics Course at the University of Toronto.
- URL:

<https://fas.calendar.utoronto.ca/course/sta490y1>

A screenshot of the TMDB API settings page. The top navigation bar shows "www.themoviedb.org/settings/api". The main content area has a purple header with "Settings", "API" (underlined), and "Create". Below this, there is documentation about the API service, a "Documentation" section linking to developers.themoviedb.org, a "Support" section, and a "Request an API Key" section. In this section, there is a link "To generate a new API key, click here." which is highlighted with a red arrow pointing to it.

IMPORTANT DATES

FINAL EXAMS

F courses

Dec. 10 – 22 UTM, UTSC

Dec. 11 – 22 St. George

Arts & Science, Daniels, Engineering,
Kinesiology, Music

hear
music?

Video call tips

- **Headphones** recommended
- Make sure you've clicked "Join Audio" in the bottom left.
- *Sometimes just exiting and clicking the link again works*

There is still time! Set up your API key.

Hi! My name is Navi.
How can I help you today?

I am stressed about exams.

Looking for mental health support?

Navi is an online chat tool that can help you find the resources and services that are right for you.

Look for the icon on U of T websites.
